 If wind speed not available was the wind speed above 2m/sec? (about 4mph or walking speed)
 YES ____ NO ____
 COURSE MEASURED BY _____ METHOD USED _____
 QUALIFICATIONS OF MEASURER _____

RACE DIRECTOR'S AFFIDAVIT

To the best of my knowledge and belief:

- 1) The course was accurately measured to Canadian or U.S. governing body standards for record purposes (or their equivalent) and there is no reason to doubt that the above athlete ran the full course as measured.
- 2) The time recorded for the athlete is accurate (i.e. the timer was accurate and there is no reason to doubt that the above time was correctly assigned to the above athlete.)
- 3) There is no reason to believe that the athlete was unfairly aided (i.e. pacing or assistance by a non competitor, illegal assistance from another competitor, etc.)
- 4) In general the times of athletes competing in the race were consistent with their normal level of performance (i.e. there is nothing to suggest anything untoward about the race results in general).

If the race director has any comments, concerns, or reservations in answering affirmatively to the above,
 please comment on the back of this form.
